The liberal patronage extended to the first number of the Springfield Almanac, Directory, and Business Advertiser, has encouraged the Publisher to make renewed exertions for meeting the expectations of the public in future numbers. Such materials are collected as are presumed to be useful, convenient, and instructive.

To collect accurately the materials for a work of this kind, it must be obvious to all that it is attended with great difficulty, as well as much labor and expense. That want of candor darkens future years;
That perfect truth is virtue's safest friend,
And that to shun the wrong is better than to mend.

Man yet mistakes his way;
While meaner things whom instinct leads,
Are rarely known to stray.

Found oftenest in what least we dread,
Frowns in the storm with angry brow,
But in the sunshine strikes the blow.

On culture, and sowing of the soil.

Reason's whole pleasure, all the joys of sense,
Lie in three words, health, peace, and competence:
But health consists with temperance alone;
And peace, O virtue! peace is all thy own.

HISTORY OF CABOTVILLE.

Cabotville is a manufacturing village of Springfield, situated on the Chicopee River, near its junction with the Connecticut, and about three miles north of the western railroad station, with which it is connected by the Northampton road, which is now in operation to this place.

The first impulse to business in this place was given by a company belonging principally in Boston, who selected it as a place for manufacturing. About the year 1831, a canal was commenced for manufacturing purposes; there was then only a dilapidated saw and grist-mill, and a few houses, where is now a village of upward of four thousand inhabitants. The first purchases were made by the Springfield Canal Co., and consisted in so much land as would secure the water power of the Chicopee river, which falls at this place upward of twenty feet. A canal having been prepared, and buildings erected for making machinery; water power was offered for sale, and mills and machinery ready for manufacturing, were built by the Canal company. About the year 1833, the Cabot Co. commenced operations for manufacturing cotton cloth, with a capital of $500,000. Since that time, the Ames Co. commenced with a capital of $75,000, for the manufacture of cutlery, machinery, &c. The Perkins Manufacturing Co. for cotton cloth, capital $500,000, and the Dwight Manufacturing Co. for cotton cloth, with a capital of $700,000. In addition to these, there is a shuttle and bobbin manufactory, and a saw and grist mill which take power from the river. In 1834 a school house was erected at an expense of about 3500 dollars, and about 1836, two buildings were commenced for churches. There are now, in 1845, six schools taught throughout the year; two of the schools employing a male, and two female teachers, in each school; in one of these, the higher branches in education are taught. The house for these two schools was built at an expense of about ten thousand dollars, and contains a philosophical apparatus purchased by subscription, at an expense of upward of seven hundred dollars.

There are now in the village six religious societies, each having a house of worship, in which services are regularly sustained, namely, Congregationalist, Universalist, Baptist, Methodist, Unitarian, and Roman Catholic. There is now manufactured in the village by the different companies, about 14,110,000 yards of cotton cloth, employing about 1540 operatives.

The Canal Co. manufacture machinery for the mills in the place, and also for sale, and employ about one hundred workmen.

The Ames Co. manufacture swords of all varieties in form and value, from two dollars each to one thousand. They have also a foundry for bronze cannon, in which several hundred cannon have been cast for the United States. They have also in operation a foundry for iron, employing about twenty workmen. They manufacture machinery and cutlery of various kinds, and employ in all, about one hundred and fifty workmen.

The Springfield and Northampton rail road passes through the village, and is to be branched to Chicopee Falls, which is about one and a half miles to the east. Boats with freight from the Connecticut river can land near the factories. The facilities for business afforded by rail road and water communication, make it a desirable place for business, and quite a number of stores are now open for merchandise.

STATISTICS OF THE AMES MANUFACTURING CO.

The Ames Manufacturing Co. occupy several buildings in each of the villages of Cabotville and Chicopee Falls.

At Cabotville they manufacture swords, bronze cannon, machinery, and cutlery of various kinds. The entire manufacturing is done on the premises; including gilding, silvering, engraving, and all ornamental finishing. Swords are made varying in value from two dollars each, to one thousand dollars. They have also in operation a foundry for iron, employing about twenty men.

At Chicopee Falls, the same company manufacture carbines and pistols for the U. S. Navy, and machinery of various kinds. The whole number of workmen em-

ployed in the two villages is about one hundred and fifty. Amount of capital, $75,000.

Its limits are those of School District No. 8. An amount of fifteen hundred dollars is raised by tax the current year, for the purposes of the district.

YOUNG MEN'S INSTITUTE.

This association was organized in Oct. 1843. Its character is like that of similar institutions which are found in most of the N. England cities and populous villages. Although designed more particularly for young men, as its name seems to indicate, yet it embraces among its members all classes in community. The library now numbers about 2000 volumes, most of which

are standard and valuable works. The Institute has rented pleasant and convenient rooms in D. Bonticou's new block, opposite Court Square, for a term of years, and have placed on the table of the Reading Room, the leading periodicals and newspapers of the day, for the use of the members of the association. Arrangements are made for a course of lectures this winter.

The Institute year commences the first Wednesday in Sept. The certificates of membership cost $2 per year for all over 18 years, and $1 per year for those under that age, and a certificate entitles the holder to all the privileges of the Institute.

Officers for the present year. Hon. John Mills, *President;* Ariel Parish, E. W. Bond, *V. Presidents;* Rev. N. Porter, Jr. *Cor. Secretary;* J. R. Hixon, *Rec. Secretary;* C. L. Covell, *Treasurer;* J. L. King, S. Bowles, Jr. J. G. Chase, Joel Holkins, B. F. Warner, *Directors.*

SPRINGFIELD INSTITUTION FOR SAVINGS.

Office at the Springfield Bank.

The design of this institution is to afford to those who are desirous of saving their money, the means of employing it to advantage, without running the risk of losing it. as they are too frequently exposed to do by lending it to individuals, who may either fail or defraud them. It is intended to encourage the industrious and prudent, and to induce those who have not hitherto been such, to lessen their unnecessary expenses, and to save and lay by something for a period of life when they will be less able to earn a support.

Deposits or moneys put in will be received as low as one dollar, and when any person's deposites or payments shall amount to five dollars, they will be put upon interest. This place will be particularly useful to persons who come in possession of money received by way of wages, or any gratuity for which they have no immediate use, and which they wish to lay by for a future day.

Widows and children may in this way be provided for. A young man intending to marry at a future day, and young women who may expect to change their condition, can here safely lay up a sum against a time when thay may want it more.

William Dwight, *President;* John Howard, James Brewer, Charles Howard, *Vice Presidents;* Adison Ware, Timothy W. Carter, Francis M. Carew, Homer Foot, Edward A. Morris, Henry Morris, Samuel Bailey, Robert E. Bemis, Josiah Hooker, Edward Ingersol, George Dwight, P. F. Wilcox, *Trustees;* John Howard, *Treasurer;* Henry Vose, *Secretary.*

Incorporated in 1828.

The SPRINGFIELD LIGHT GUARD was organized in August, 1844, as company E. of the 10th Regiment, 6th Brigade, 3d Division of the M. V. M.; and made its first public parade on the 4th of October, 1844. It numbers about fifty members, and has permanently connected with it, by enlistment, a brass band of twelve instruments. Its present officers are,

H. Foot, 1st *Lieutenant,*
B. F. Warner, 2d *do.*
H. Vose, 3d *do.*

UNITED STATES ARMORY AT SPRINGFIELD,

Is delightfully situated on State Street, about half a mile east of Main Street. The buildings, (which are all of brick,) are arranged with great taste and judgment, around a level square of twenty acres, and make a fine appearance. The water shops are situated on Mill River, about a mile south of the Arsenal. This is considered the most important establishment of this kind in the United States.

It was established by an act of Congress, in April, 1794, and in the following year, 245 muskets were manufactured. There are now, (1845,) about 12,000 made

yearly, and 230 persons employed. Whole number manufactured since its establishment, about four hundred and ninety thousand; of which number, one hundred and forty thousand remain in the arsenal.

The names of the Superintendents who commanded up to 1841, are as follows:—David Ames, Joseph Morgan, Benjamin Prescott, Henry Seckler, Esqr., Col. Roswell Lee, and John Robb, Esq.

Major James W. Ripley, now in command.

Joseph Weatherhead, *Acting Master Armorer.*

Edward Ingersol, *Military Store keeper, and Pay-master.*

Clerks. Joel Halkins, A. M. White, Wm. W. Lee, Lucius C. Allin.

Inspectors. Ashel Hubbard, John C. Stebbins, Cyrus Buckland.

Assistant Inspectors. John A. Gambier, David Le Gro, Oliver Sexton, Erskin S. Allin, James B. Stillman, Walter Buckland, Henry D. Wallace. John Loid, *Master Carpenter.*

SPRINGFIELD CEMETERY.

This ground is the property of a corporation which was organized in May, 1841. It is situated between Maple and Pine streets, and contains about 25 acres. Each individual who purchases a lot becomes a member of the corporation. The lots are sold at from 8 to 13 1-2 cents per foot.

Though but so recently opened, the improvements made are such as will amply compensate those who visit our flourishing village, for the time it will require to pass over and behold them.

The annual meeting is on the first Monday of May.

Rev. W. B. O. Peabody, *President;* Lewis Warriner, *Clerk and Treasurer;* S. Reynolds, and George Dwight, *Auditors;* Wm. Dwight, Geo. Eaton, S. Reynolds, Geo. Dwight, James Brewer, W. H. Bowdoin, and Wm. S. Elwell, *Trustees.*

Apollos Marsh, *Superintendent.*

WASHINGTON TEMPERANCE SOCIETY.

It is now more than twenty years since the organization of the first Temperance Society of Springfield. The pledge of this society only required its members to abstain from the immoderate use of ardent spirits.

As early as 1829, another society was organized, principally through the agency of Mr. Spencer Judd, which required of its members entire abstinence from the use of all distilled liquors as a beverage. This society, however, was ultimately superseded by the 'Young Men's Temperance Society,' which was organized in 1834. The present Washington Temperance Society was organized in Nov. 1841. Its first president was Chester Sexton. Those who have successively served the society in the same office, since, are Joseph Frary, Dr. James Swan, Rufus Elmer, and Dr. J. Swan, the present president, who was re-elected to office Sept. 22d, 1845. The following are also officers of the society: Charles Howard, Elihu C. Hunt, and Chester Sexton, *Vice Presidents;* A. G. Tannatt, *Secretary;* and John R. Hixon, *Treasurer*. Its membership is nearly 4000. At a recent meeting of the society it was resolved to establish regular weekly meetings, to be held on Friday eve, for the transaction of business, and for brief and familiar lectures. The *Executive Committee*, A. G. Tannatt, A. M. Cooley, and Dr. Swan,

have also made provision for a regular course of lectures on each Sunday evening during the present season. This soeiety has without doubt accomplished great good, but its exertions must be much more vigorous in order to correspond with the increasing demand of our community.

The following are the names of the officers of the Hampden County Total Abstinence Society, chosen at the annual meeting, holden Oct. 9th, 1845.

Hon. Charles Sterns, *President; Vice Presidents*, Hon. James Fowler, of Westfield; Hon. Orrin Sage, of Blanford; Hon. Charles Howard, of Springfield; Rev. Mr. Hodges, of Palmer; Dr. Wm. Rockwell, Southwick; Forbes Kyle, Esq. Chester; Capt. Henry Phelan, Jr. West Springfield; Wm. Smith, Chicopee Falls; Sylvester Allen, Willimansett; John Moody, Ludlow; Simeon Newell, Longmeadow; Hezekiah Burt, E. Longmeadow; John Wallace, Holland; Alured Homer, Brimfield; L. B. Wight, Wales; R. R. Wright, N. Wilbraham; Elizur Moore, Tolland; Geo. Shepard, West Granville. Allen Bangs, Jr. Esq. *Secretary;* John R. Hixon, *Treasurer.*

HISTORY OF SPRINGFIELD.

Springfield was first settled in the year 1635, by Wm. Pynchon, who may be considered as the father of the town, together with other persons, who removed to this place from Roxbury, under the license of the General Court of Massachusetts. They commenced building a house on the west side of the Connecticut River, but being informed by some friendly Indians that the house would be exposed to the flood, they abandoned it, and built another on the east side. Mr. Pynchon passed the winter in Roxbury, and in the spring of the following year, 1636, returned here, with a number of others, with their families.

The original limits of the town were very extensive, including many of the present towns on both sides of the Connecticut River. The Indian name was Agawam, which name was, by a vote of the town in 1640, changed to Springfield. Some uncertainty exists as to the date of its incorporation; most probably, however, it was in 1641. The town rapidly increased, and settlements were extended in every direction.

During King Philip's War, Springfield suffered with

other towns. On the 5th of Oct. 1675, an attack was made on the town by some three hundred warriors, and three men and one woman were killed, and about thirty houses and twenty-five barns were burned.

Springfield was also in part the theatre of the movements of the insurgents during the 'Shay's Rebellion.' In Dec. 1786, Shays, with three hundred malcontents, marched into the town and took possession of the Court house, and prevented the sitting of the court, appointed to be holden at that time. In the Jan. following an attempt was also made to take possession of the U. S. arsenal, which however was prevented by a force collected under Gen. Shepard, who admonished the insurgents to discontinue their approach. No heed being paid to the request, they were finally fired upon, and three men were killed and one wounded, upon which the whole body precipitately retreated.

In May, 1836, the Duo-centennial anniversary of the town was celebrated with much eclat, by a procession of civic and military bodies, an oration, and other public exercises.

The town has rapidly increased in wealth and population, and its future prospects are very flattering. In manufacturing importance it is second only to Lowell, and it is beyond doubt, destined soon to become one of the most important commercial depots in New England; being favorably situated for river commerce, and nearly equi-distant on the line of the Western Rail Road from Boston and Albany, also the terminus of the New Haven, Hartford, and Springfield Rail Road, which will soon be extended to New York, and of the Connecticut River Rail Road, which is in progress of completion to Greenfield, and will doubtless in time, be extended much farther up the Connecticut Valley.

THE VILLAGE OF CHICOPEE FALLS.

The village of Chicopee Falls is situated upon the south bank of the Chicopee River, about two miles from its junction with the Connecticut, four and a half miles north from Springfield centre, and one and one half miles east from Cabotville. At this place, (before being diverted from its natural channel by means of a canal,) the river flowed over a singularly uniform dam formed by the red sand stone, presenting to the view of the beholder the beautiful falls known by the Indian name of 'Squanunganuck.'

In 1822, the proprietors of the Boston and Springfield Manufacturing Co. (since changed to the Chicopee Manufacturing Co.,) purchased of the original proprietor, Mr. Benjamin Belcher, all the water power upon the south side of the river, and a large tract of land for manufacturing purposes. Mr. Belcher had previously erected a cupola furnace at this place, the business of which, amounting to more than 250 tons of castings per annum, is still carried on by his descendants.

The Chicopee Manufacturing Company have now in operation 4 large cotton mills, with a capital of 700,000 dollars, employing 200 male, and 600 female operatives, consuming 5000 bales of cotton, and manufacturing 6,000,000 yards of cloth per annum. Connected with their works is a machine shop, employing 20 men.

In 1836, the Chicopee Falls Company went into operation with a capital of 60,000 dollars, engaged in manufacturing saws, fire arms, and machinery of various descriptions. These extensive works are now owned by the Ames Manufacturing Co., and furnish employment for from 75 to 100 mechanics.

The present population is upward of 2000. The village contains 200 dwelling houses, one hotel, two markets, ten stores, a number of mechanic shops, and three churches — one Congregational, one Baptist, and one Methodist.

An elegant building is now being erected at an expense of about $7000 for the accommodation of the public schools. It occupies a commanding situation, and will add much to the appearance of this beautiful village.

Upon the north side of the river is the extensive paper mill recently purchased by the Chicopee Co. of Messrs. D. & J. Ames, for the purpose of improving their water power, which affords opportunity for a large increase of the business and population of this portion of the town.

A branch of the Connecticut River rail road is to be constructed from Cabotville to this place during the coming season.

A fire district has been organized at Chicopee Falls, included within the limits of School District No. 16. The officers are,

T. W. Carter, *Chief Engineer.*
H. Rowley, 1st *Assistant Engineer,*
O. C. Chapman, 2d " "

P. F. Wilcox, *President,*—J. Willard, J. Abbot, B. Leavitt, D. Smith, S. Raynolds, S. Sanborn, J. Humeston, Wm. Child, *Directors,*—J. Willard, *Secretary.*
